

YARDZEN

Design Deliverables

What you can expect to receive with the purchase of a Yardzen design package

[View Sample Design →](#)

1

House Model

We start with a 3D model of your house and outdoor space. This map helps visualize functional zones and intelligent flow between spaces.

This is a critical tool to confirm we design to an accurate depiction of your space and for you to share any preferences for where we will place design elements.

2

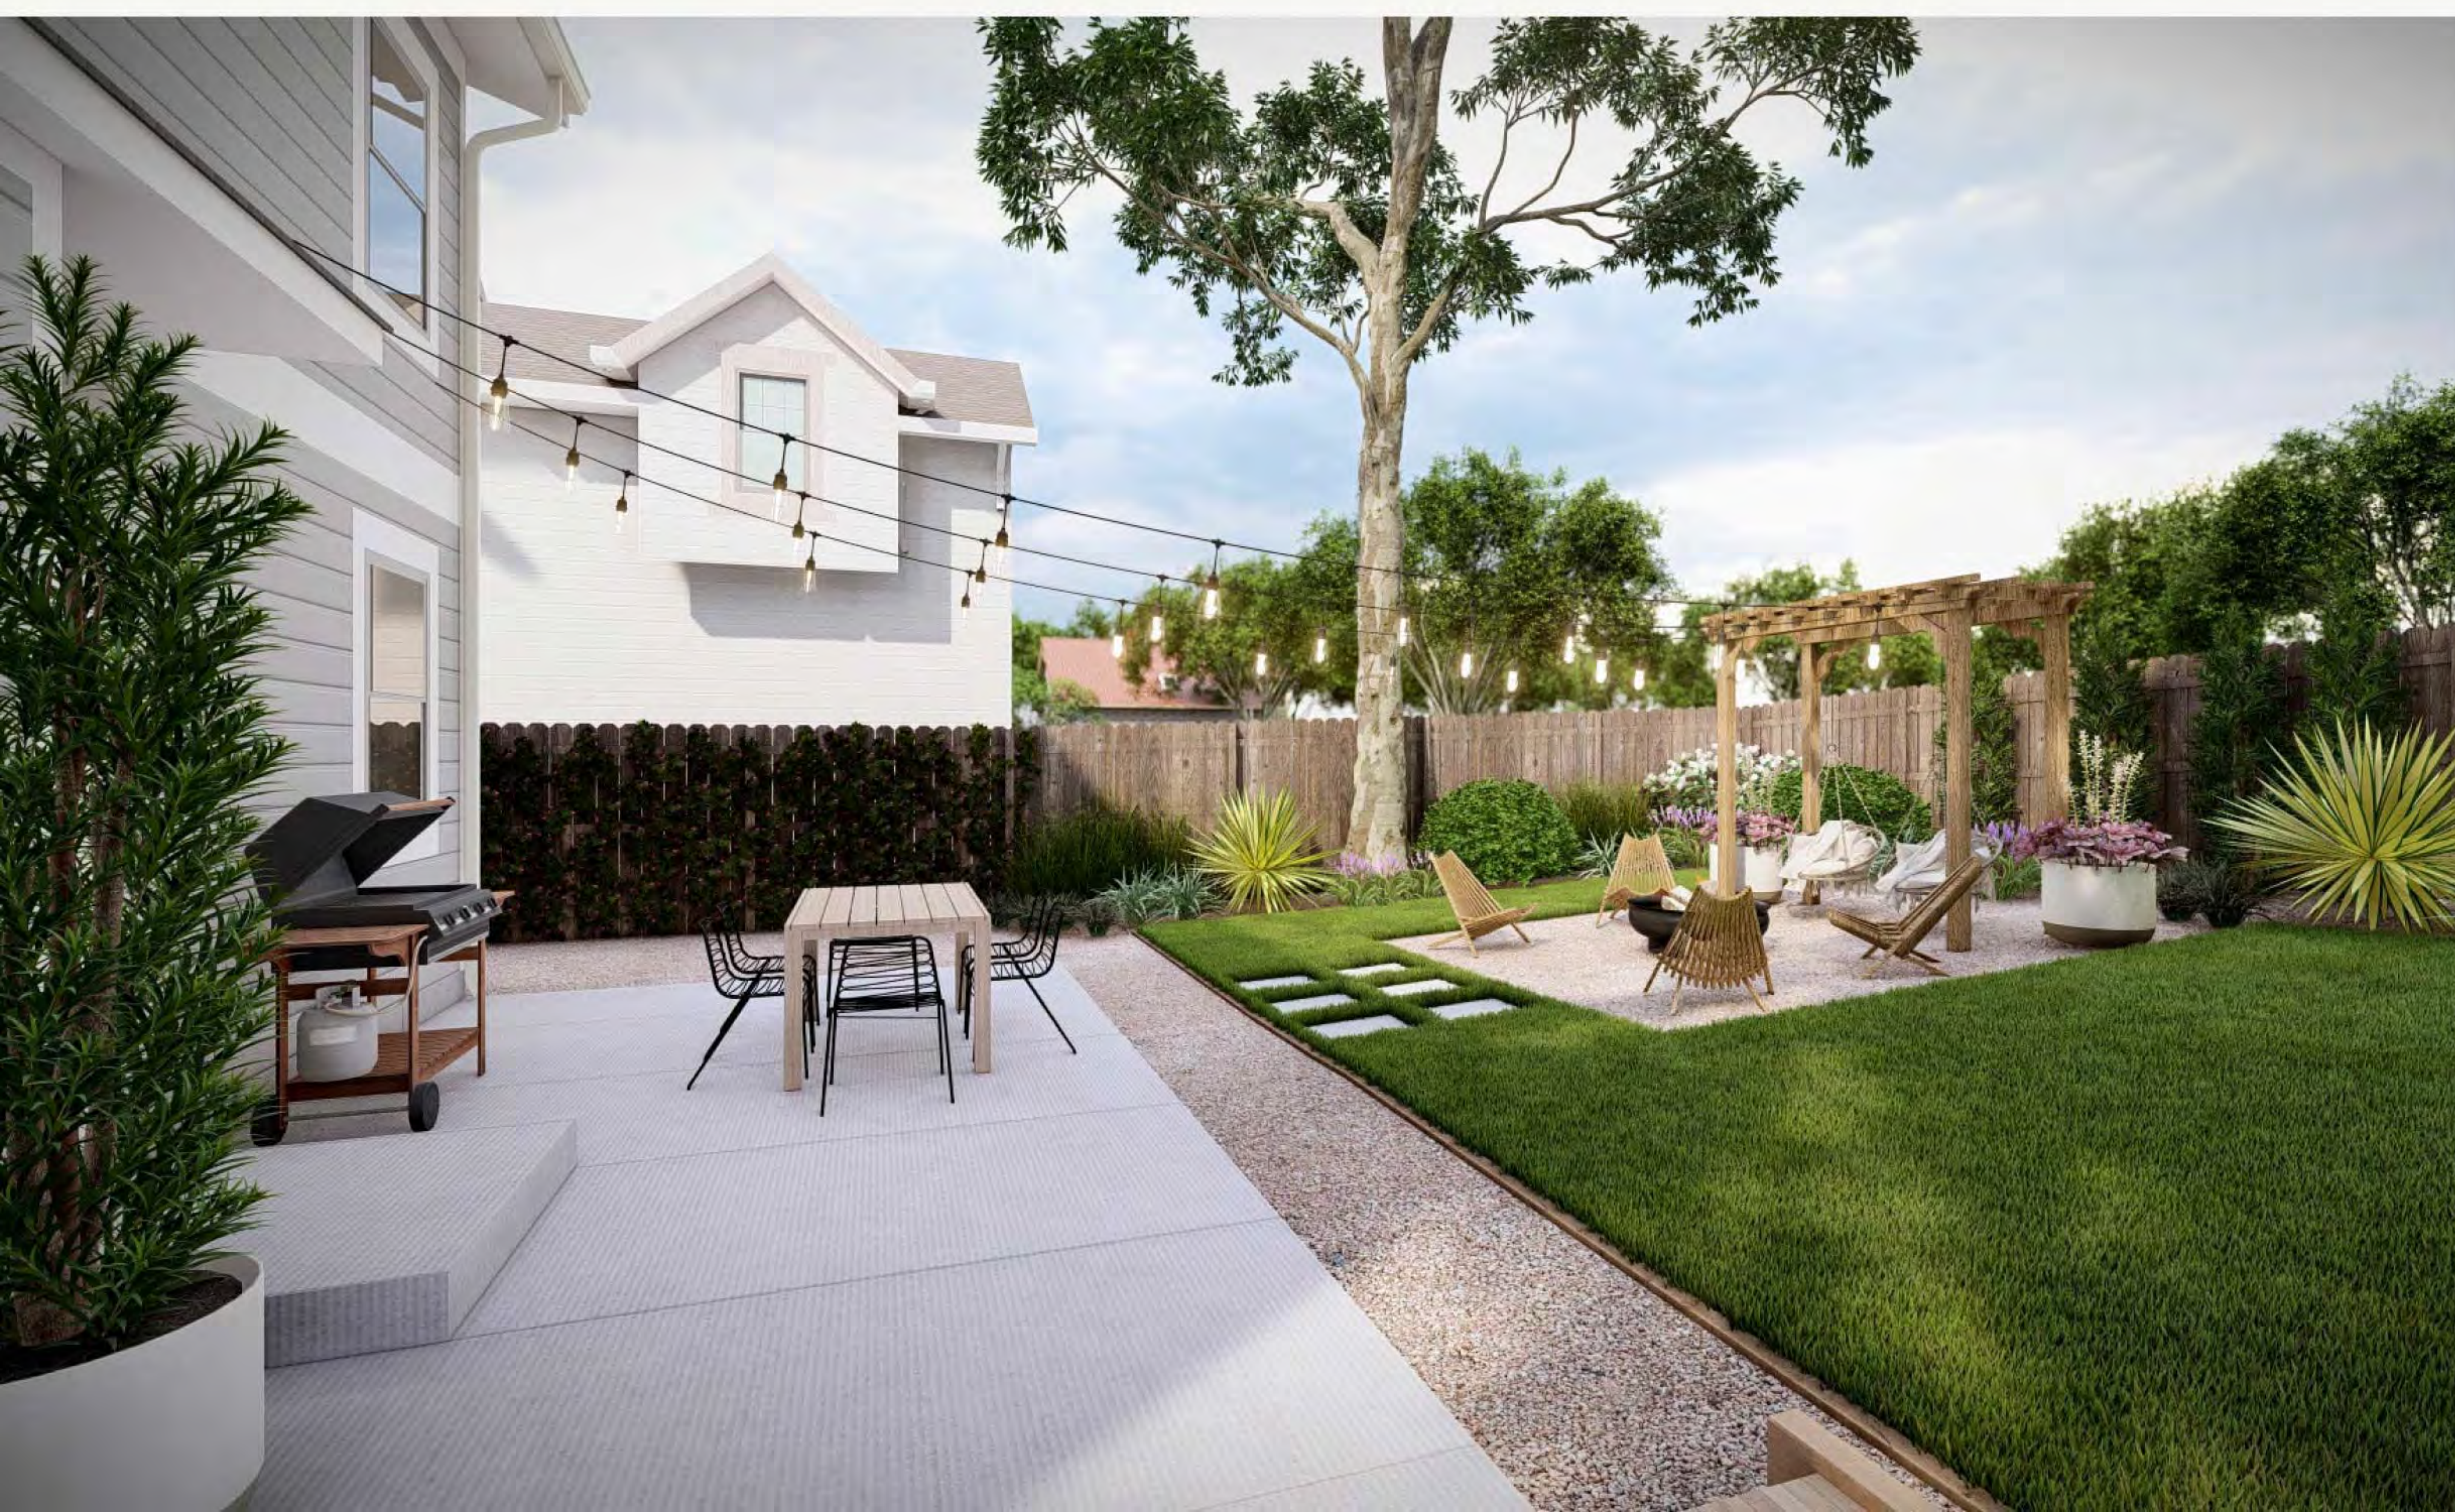

Conceptual Design Renders

After reviewing your needs, style, budget, and yard conditions (sunlight, climate, local ecosystem, etc.), we create photorealistic renders showing a design concept for your space.

You will receive at least 10 high-quality renders to visualize all aspects of the design (including multiple angles, overhead view, and daytime/nighttime views), get a feel for the style, and see placement of key elements.

Multiple Angles

Nighttime For Lighting

Feedback Studio

Our online feedback studio makes it easy to give feedback on your designs. Click anywhere within your designs, leave comments, provide additional photos or inspiration, and ask questions. This digital platform allows for efficient and clear communication with your designer.

Love it!

Change this!

Question?

Remove this!

- Love this bowl fire pit!
- Beautiful plants in this container.
- Can we make the pavers larger?
- Is this the 7x9' pergola kit?
